

**Fellowships in Intellectual Disability (ID)  
Autism Spectrum Disorder  
Intellectual Disability with Dementia**

**Call for ASSISTID-Marie Curie proposals 2015**

The DOCTRID Research Institute invites submissions for research proposals in the area of **Assistive Technologies for Intellectual Disability (ID)**. Proposals will also be accepted in the areas of **Autism Spectrum Disorders and Dementia** where Assistive Technologies can be demonstrated to be of benefit to the person. Competitive proposals will address how quality of life, independence, social inclusion and Service provision can be enhanced through the use of Assistive Technologies; either by the application or adaptation of existing technologies or by the development of new technologies.

**Social and Behavioural Scientists, Occupational Therapists, Behavioural Psychologists, Speech and Language therapists, Life Scientists, Computer Scientists, Engineers and Healthcare professionals are all welcome to apply.**

**ASSISTID Fellowship benefits**

- Generous Fellowship award (€80,000 to €100,000/yr. including mobility, training and consumables)
- Fellows will join the prestigious Marie Curie network
- Training & research opportunities within the international DOCTRID Research Institute

Visit [www.assistid.eu](http://www.assistid.eu) for more information on research areas and to submit your application

**Deadline for submission of applications:**

Rolling call closes 30<sup>th</sup> June 2015

Second call opens 1<sup>st</sup> July-30<sup>th</sup> September 2015

ASSISTID is coordinated by the DOCTRID Research Institute (comprised of 15 university and Higher Education Institutions in Ireland, USA and UK) and is cofunded by the charity RESPECT and the European Union
