# Champalimaud Foundation

## António Champalimaud Vision Award
## Candidate Entry Form

**Candidate entry forms must be completed by either a Candidate Group itself or a Nominator. Applications directly from potential awardees should be signed by the submitting candidate group leader(s) on page 5. Nominations should be signed by the nominator on page 6 of the entry form.**

In addition please include in your entry a report of the Group's activities (either a text, brochure or annual report) and up to three supporting letters by people not affiliated with the organizations with which the candidates are involved.

We are aware that filled-in pdf forms may not save to disk, in this case please use word for the digital submission.

Please submit by mail all materials print typed in English, both in paper and disk/digital form (word.dot or adobe.pdf format), to:

**Champalimaud Foundation**
**Av. Brasília**
**1400-038 Lisbon, Portugal**

**Completed Entries must be received in full by the Foundation not later than December 31st, 2018.**

For more information please contact:

# Candidate Information

Candidate Group(s)*

Group(s) Leader(s)

Organization / Project**

Address(es) /
Postcode(s)***

Country (s)

Telephone /Cellular

Email***

\*    Recipients of the António Champalimaud Vision Award will be productive
     groups rather than individuals. This may involve groups from more than one
     institution or discipline.
\*\*   Group(s) may be affiliated to broader-based organization(s).
\*\*\* Please indicate address and email to which correspondence should be addressed.

**1  Suggested Citation of the Candidates' Contributions**
   **Please provide a suggested citation which succinctly presents the important
   aspects of the contribution(s) which you propose to be recognized by the award.**
   (50 words or less)

**2  Description of the Candidates' Work**

**What are the initiatives implemented to provide enduring changes in the visual health of an affected population?** Please include background references to socioeconomic and geographic characteristics of the problem in the target population(s), the nature of the activities executed, the length and consistency of these, as well as a description of the methods/procedures used and approaches taken. (400 words or less)

**3  Candidates' Achievements to Date**

**What is the measurable and/or tangible impact of the candidates' activities in the community/ies affected? What is the impact of the work in the country/region?**
The question refers to the perceived achievements: What has been the success of the candidates' activities? Please attempt to provide referenced measures of the local and, if applicable, potential national/international impact of the work undertaken.
(300 words or less)

## 4  Knock-on Effects of the Candidates' Activities

**How have the candidates' actions acted as a positive motivation for the local community and/or others involved in developmental projects? Can the implemented efforts provide enduring results and/or launch additional humanitarian efforts?**

The question refers to potentially amplifying effects of the activities. These, if applicable, relate to the positive example set by the candidates' work and can be demonstrated through the reaction of the local community and/or the work of other developmental agencies. Such a positive motivational influence could manifest itself in a variety of ways, such as the reproducibility of the candidates' work in other affected areas, the ability to recruit or train further members of the community, engage further local resources or humanitarian aid, or any other insightful approach. (200 words or less)

The Candidate Group(s) agree(s), in case of receiving the award, to ultimately inform the Champalimaud Foundation as to how they have effectively used the António Champalimaud Science Award funds.
