Principal Investigator

Emerging researchers: applicants whose PhD was awarded between 7 and 2 years before the call deadline (i.e between 13th June 2017 and 13th June 2012) are required to have published at least 3 scientific articles in the preceding 5 years.

Consolidated researchers: applicants whose PhD was awarded 7 years or more before the call deadline (i.e before 13 June 2012) are required to have published at least 5 scientific articles in the preceding 5 years.

Only journals indexed in Scopus or Web of Science and journals recognized by FECYT will be considered for this purpose.

PhD award date *

Research experience *

In the cases of interruption of the research activity between the date of obtaining the doctoral degree and the call deadline, the candidate may request an extension of such periods. To these effects, the following causes are considered as an interruption of the research activity:

- **Illness or accident** that has led to sick leave for three months or more. An extension may be applied for the number of justified months.

- **Maternity or paternity.** An extension of 1 year can be applied for each child. Both cases must be duly justified by means of a supporting document when required by "la Caixa" Foundation.

The request must be duly justified by means of supporting documentation when required by "la Caixa" Banking Foundation.

Have you taken a career break after the award of the PhD? *

No, I have not
